DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 3 and 4 are rejected under 35 U.S.C. 102(e) as being anticipated by Obradovich (US 6,982,635).

- In regard to claim 3, Obradovich discloses a driver assistance system for a motor vehicle comprising:
 - At least one of: (a) means for outputting information to a vehicle driver of the motor vehicle (Column 4, lines 58-67), and (b) means for operation of the driver assistance system by the vehicle driver (Column 4, lines 58-67)
 - Means for determining a workload state of the vehicle driver (column 6, lines 1-17)

Art Unit: 3664

- Means for controlling at least one of (a) the information output (Column 5, lines 32-44) and (b) the operation, as a function of the workload state of the vehicle driver (Column 6, lines 1-17)
- In regard to claim 4, further comprising a profile memory for storing at least one user profile, and wherein the controlling is further function of the user profile stored in the profile memory. (Column 21, lines 4-21).
